

NEW AND IMPROVED SECURE PELLET[®] VENTING SYSTEM FOR BIOFUELS

- High-temperature-rated silicone gasket at each female joint
- 444 stainless steel
- Laser-welded
- Galvalume outer casing
- Adjustable wall support
- Black pipe
- Adjustable attic radiation shield
- NEW Limited lifetime warranty

Secure Pellet is designed to offer unparalleled strength, resilience and installation ease. Available in 3" and 4" diameters with a 1" clearance to combustibles, the Secure Pellet is the ideal venting solution for: wood-, pellet- or biofuel burning stoves; low-temperature or liquid-fuel-burning appliances.

The Secure Pellet venting system is listed with ITS (Intertek Testing Services) and the listing mark is Warnock Hersey. Tested in accordance with the following standards: UL-641, ULC-S609, ULC/ORD-C441 (standards for Safety Type L, low-temperature venting systems).

As a reflection of our ongoing commitment to product quality, the Secure Pellet vent pipe, while reducing installation time and headaches, is engineered to be the most durable and easy-to-install product on the market today.
