

DuraTech LDC 10"-24"

All Fuel, Double-Wall Large Diameter Chimney

UL-Certified: Rigorously Tested for Safety and Fire Hazard Protection

We're excited to introduce the DuraTech LDC 10"-24" chimney system across our Duravent Group brands: Amerivent, Duravent, Hart & Cooley, Security Chimneys, and Selkirk.

The 10"-16" diameters are listed to UL 103 Type HT. That means our 10"-16" chimney system is perfectly suited for high-temperature appliances, making it ideal for factory-built fireplaces, large masonry fireplaces, and boilers.

The 18"-24" diameters are listed in the US to UL 103. In Canada, the 10"-24" diameters are listed to CAN/ULC-604. The DuraTech LDC may also be used on specific factory-built fireplaces listed to CAN/ULC-610 & UL 127.

DuraTech LDC features:

- Available in 10" - 24" diameters
- 1" Thermal Tech insulation blanket
- Outer Wall available in 430 Stainless Steel (.027") or Galvalume (.029") [US only]
- Inner Wall is 430 stainless steel (.027")
- 2" clearance to combustibles

US Listings:

- UL 103 Type HT in 10"-16" diameters
- UL 103 in 18"-24" diameters

Canada Listing:

- CAN/ULC-604 in 10" - 24" diameters
